Flora and Fauna

Transformative wallpapers will be big this year, too. "We could all stand to be surrounded by nature more often, even if that means opting for transportative wallcoverings that evoke secret garden vibes," says Rebekah Zaveloff, founder and creative director at [Imparfait Design Studio](#). In this way, wallpaper can be not just a decorative accessory, but a design apparatus that can home our most-loved places and atmospheres.

Printed Grasscloth

Natural wallcoverings can be the just the thing to bring jaded spaces back to life. In balance, visual and tactile texture can make a space feel more welcoming and comfortable. "I can't get enough of the texture and the bohemian vibe of printed [grasscloth wallcoverings](#)," Zaveloff says. "It makes any room in your house feel like you're on holiday, providing a sort of brain vacation from everyday life."
